Education

Techno Main Salt Lake

Aug 2024 – June 2028

B.Tech in Computer Science and Engineering (GPA: 9.01)

- **Relevant Coursework:** Data Structures and Algorithms (Java), Probability & Statistics in CS (Python), Operating Systems, Database Management Systems, Computer Networks, Object-Oriented Programming, Software Development

Hirendra Leela Patranavis School

Higher Secondary & Secondary Education

- Class XII – **90.75%**

Experience

Freelance Web Developer

2025-Present

React, Tailwind CSS

Khola Hawa(NGO)

- **Implemented** responsive UI components and modern design practices, **enhancing user engagement by 40%**

Projects

DyslexiAid | [Next.js](#), [React](#), [MongoDB](#), [REST APIs](#) [GitHub](#)

- Built a **Next.js web application** that converts standard text into a **dyslexia-friendly format**, improving readability and accessibility for neurodiverse users
- Implemented **RESTful APIs** and **MongoDB-based** data handling for multi-format text and webpage URL processing
- Integrated a **Text-to-Speech** feature enabling auditory learning support for users with reading difficulties
- Achieved up to **30% improvement in reading speed**
- Reduced reported reading fatigue by **25% during usability testing sessions**

Diabetes Predictor | [Python](#), [scikit-learn](#), [Google Colab](#) [GitHub](#)

- Developed a **Support Vector Machine (SVM)** model to predict diabetes risk using clinical health indicators
- Achieved **77.3% test accuracy** on the **PIMA Indians Diabetes Dataset** via hyperparameter tuning and cross validation
- Applied **statistical analysis** to identify **key predictors such as glucose, BMI and age**

Achievements

- CodeChef STARTERS – Global Rank **512 / 30,000+** (Starters 194)
- **3 stars** @Codechef (CodeChef Profile)
- Top 30% Leetcode (LeetCode Profile)
- ICPC Asia West Preliminary Contest – **AIR 1649 / 3,000+ teams**, **Institute Topper** (Link)
- Smart India Hackathon (SIH) – Qualified among **Top 40 / 245+ teams** in the Internal Round (Certificate)
- Solved **300+** Data Structures & Algorithms problems across multiple competitive programming platforms
- CodeClash Coding Contest – Secured **Rank 328 / 6,000+** participants (Certificate)
- Game of Codes (PES's Modern College of Engineering) – Ranked **71 / 776** participants (Certificate)

Technical Skills

- **Languages:** Java, JavaScript, Python, C
- **Frameworks & Libraries:** FastAPI, Node.js, React.js, NumPy, Pandas, CSS
- **Databases & Tools:** MongoDB, Google Colab, GitHub, VS Code
- **Core Skills:** Backend Development, Problem Solving, Competitive Programming
